

Work Activity Brief

Course (s)	IT Level 2		
Project Title	App Development Brief		
Tutor/s	Aaron Thomas		
Issue date	April 2020	Completion date	August 2020

Project overview

These tasks will help give you a feel for the IT Level 2 course at East Surrey College. Each task should be taken and expanded as you see fit, developing and learning new skills as you go on. If you are unsure how to complete something or do something new, have a look at the Android forums for support.

At East Surrey College, we encourage our students to be independent learners. This means:

- Being organised
- Being self-motivated
- Being curious for learning
- Being ready to contribute to learning

Why focus on study skills? Because reflecting on HOW we learn, is just as important as WHAT we

Once you have completed your project, please forward this to the following email address along with your full name: submissions@esc.ac.uk. We'll then forward this on to our curriculum teams who will be in touch shortly.

Outcome of the project

This project has been developed to help you to prepare for the programme that you will be joining in September. It will hopefully give you some insight into the subject area and support the development of your skills to work independently as well as build on your assignment writing.

These are the tasks that you need to complete, and they will support you to structure your work.

Task 1

Follow one of the below tutorials on the app development website:

Space Invaders

<http://explore.appinventor.mit.edu/ai2/space-invaders>

Oh My Spikes

<http://www.imagnity.com/android/oh-my-spikes-create-a-game-from-scratch-using-app-inventor/>

Mole Mash

<http://explore.appinventor.mit.edu/ai2/molemash-2>

Now apply what you have learned and try to change the application you have made. Customise the graphics/code to change it into something more from your own ideas.

Task 2

Complete a portfolio of example work on wix.com. You can use the above tutorials to provide you with content if you lack any.

Ensure that, on your wix website, you have included an image of yourself and any relevant examples of work experience and work you have completed already.
